RELEVANT EXPERIENCE

Bridgenext Inc.(Emtec Inc.), Pune, MH.

Software Development Engineer (GraphQL Developer)
April 2023 - Present (2 years, 4 months as of Aug-2025)
Associate S.D.E. (React Developer)
April 2022 - March 2023 (1 year)
Contractor (React Developer)
October 2021 - March 2022 (6 months)

Project: US-Based Banking Platform (October 2021 - Present)

- Since October 2021, I've been part of a US-based bank project. This Project is to provide better banking services for all types of customers.
- Working on different areas, mainly GraphQL and React tech stack.
- I was working on schema design and implementation as per the requirement. Collaborating with FE and BE teams to get new features out in agile board development cycles.
- Working to gather deployment data for the week and getting approvals, ensuring seamless deployments each week and being part of OnCall rotations.
- Involved in client grooming calls and client demo day calls.
